03. LOTTE CHEMICAL BUSINESS

01. LOTTE GROUP

Lifetime Value Creator that adds value of abundance to human life, LOTTE

LOTTE made continuous challenges and innovations in various fields such as chemistry, food, distribution, tourism and construction, and is offering new lifestyles.

LOTTE is making a more convenient and fun lifestyle, and a happy tomorrow where everyone can grow.

Driven by continuous change and challenges,
 LOTTE Chemical is leading the future of Korea's chemical industry.
 Building on a legacy of innovation toward global excellence, we will open a new era.

1970 - 2000

- 1976. 3**
Established Honam Petrochemical
- 1979. 6**
LOTTE Groups, Acquired Honam Petrochemical (Privatization completed)

- 1979.12**
Started commercial production at all plants

- 1982.11**
Achieved USD 100 Million Export

- 1991. 5**
Initial public offering

- 1991. 6**
Completed construction of the Daejeon R&D Center

2000 - 2010

- 2003. 6**
Acquired Hyundai Petrochemical (LOTTE CHEMICAL Daesan Plant)
- 2004. 7**
Acquired KP Chemical (LOTTE CHEMICAL Ulsan Plant)
- 2006. 7.**
Established Honam Petrochemical Trading in Shanghai (The first subsidiary in China)
- 2006. 8.**
Established LOTTE MCC (JV with Mitsubishi Chemical)

2010 - 2019

- 2010. 11.**
Acquired TITAN Chemicals (LOTTE CHEMICAL TITAN)
- 2011. 11.**
Established LOTTE MITSUI CHEMICALS
- 2012. 12**
Merged KP Chemical and changed the corporation name to "LOTTE CHEMICAL"
- 2014. 4**
Established Hyundai Chemical (JV with Hyundai Oil Bank)

- 2015. 10**
Completed the Uzbekistan gas project (UZ-Kor)
- 2016. 5**
Acquired LOTTE ADVANCED MATERIALS, LOTTE FINE CHEMICAL from SAMSUNG Group
- 2019. 5**
Completed construction of the Ethane Cracking Center and Ethylene Glycol Plant in U.S.

2020 - Present

- 2020. 1**
Merged LOTTE Advanced Materials
- 2020. 2**
Established LOTTE-GS CHEMICAL (JV with GS Energy)
- 2021. 2**
Announcement of Eco initiative 'Green Promise 2030'
- 2022. 1**
Investment in the Indonesia LINE project
- 2022. 5**
Announced the '2030 Vision'

- 2022. 9**
Established LOTTE SK ENERROOT
- 2022. 12**
Established LOTTE Air Liquide ENERHY
- 2023. 3**
Merged LOTTE Energy Materials
- 2023. 9**
Launched 'ECOSEED', a resource circulation material brand
- 2024. 9**
Launched LOTTE Engineering Plastics

- 2025. 11**
Completed construction of the LINE project in Indonesia

03. BUSINESS

LOTTE Chemical's diverse portfolio of products is widely applied across everyday consumer goods as well as key industries such as mobility, home appliances, healthcare, and construction—extending further into advanced materials for robotics and aerospace.

We are also expanding new businesses for a sustainable future, including fine chemicals, battery materials, and hydrogen energy.

Basic Chemicals

- Basic/Intermediate Petrochemicals
- Monomer
- Polymers · Synthetic rubber

Advanced Materials

- High Performance Plastics
- Construction Materials

Fine Chemicals

- Chlorine / Ammonia relatives
- Industrial / Food & Pharmaceutical materials

Battery Materials

- LiB battery materials
- All solid state battery materials
- Hyper Very Low Profile Copper Foil

Hydrogen Energy

- By-product / reformed hydrogen
- Clean hydrogen and ammonia
- Hydrogen energy utilization business

Basic Petrochemicals

Polymer & Synthetic Rubbers

Monomer

Basic Chemicals

Essential materials powering industries

LOTTE Chemical's Basic Chemicals business provides a comprehensive foundation that spans the entire value chain—from petrochemical feedstocks to chemical products and synthetic resins—supported by **stable operations and a global production network.**

This business forms **the backbone of the company's portfolio,** supporting the growth of specialty and next-generation businesses.

-  LOTTE CHEMICAL

- LOTTE GS Chemical

Field of Business

Basic/Intermediate
Petrochemicals, Monomers,
Polymers, Synthetic rubber

Production Site

Korea, Malaysia,
Indonesia, USA,
Uzbekistan

We provide a comprehensive portfolio of basic materials, ranging from petrochemical intermediates to chemical products, synthetic resins, and synthetic rubber.

Basic and Intermediate Petrochemicals

We produce a wide range of chemical products using diverse petrochemical feedstocks such as naphtha, LPG, and ethane.

Backed by a **vertically integrated and efficient production system**, as well as a **global production network**, we ensure a **stable and competitive supply**.

Basic

- Ethylene
- Propylene
- Mixed C4
- BD
- BTX

Intermediate

- Me-X
- OX
- PX
- SM

Monomer

Through **vertically integrated operations**, we ensure a stable supply and deliver product solutions tailored to customer needs.

Monomer

- EO
- EG/GE
- EOA
- PIA
- MMA/PMMA (LOTTE MCC)

Polymers and Synthetic Rubbers

Widely used across industries and everyday life—from consumer goods to agriculture, manufacturing, healthcare, automotive, and advanced materials—it enhances quality of life.

Polymer

- HDPE
- LDPE
- LLDPE / EVA
- PP
- PET

Synthetic rubber

- SSBR/EPDM (LOTTE Versalis Elastomers)

Enhanced value of life
Advanced Materials

Advanced Materials

Driving Innovation with High-Performance Advanced Materials

LOTTE Chemical's Advanced Materials business delivers **optimal material solutions** across a wide range of industries—including home appliances, IT, energy, healthcare, and mobility—leveraging high-performance synthetic resins and engineering plastics. By meeting key performance requirements such as lightweighting, heat resistance, and resource circularity, we enhance product performance while enabling differentiation for our customers. By expanding our specialty-focused portfolio and strengthening advanced technological capabilities, we continue to broaden our presence in next-generation materials markets.

Creative arrangements in spaces
Construction & Interior Materials

Field of Business

High Performanced Plastics,
Mobility Solution,
Construction/Interior Materials

Production Site

Korea, US, China,
Mexico, Hungary, Vietnam,
India, Indonesia, Türkiye

Advanced Materials & Construction · Interior Materials

Advanced high-performance synthetic resins, applied from home appliances and IT devices to energy, healthcare, and mobility, enhance the quality and value of everyday life.

Complementing the limitations of natural stone, LOTTE Chemical's **architectural and interior materials** deliver both aesthetics and functionality, creating pleasant and refined living spaces.

High Performed Plastics		Styrene & General Product ABS, ABS Alloy, SAN, ASA, PP	
		Engineering plastics PC, PC Alloy, PBT, mPPE, PA, PPA, PPS, PCT	
		Olefin-Based Resins for Mobility & functional compound LFT, PP Compound, Thermoplastic Elastomers

	Acrylic solid surface	Natural quartz engineered stone	Engineered porcelain surface

Fine Chemicals

Leading a sustainable future with functional materials

LOTTE Fine Chemical offers a wide range of products, from **chlorine and ammonia** products—such as ECH, caustic soda, ammonia, and urea solution—to high value-added **cellulose** materials for industrial, food, and pharmaceutical applications. The company also operates the largest ammonia storage facility in Korea.

Field of Business

Chemical (chlorine/ammonia),
Green materials (cellulose)

Production Site

Korea, China, US,
Germany, India

LOTTE Fine Chemical focuses on green materials, specialty businesses, and renewable energy to become a global specialty chemical company.

Hydrogen Energy

Driving the growth of the future hydrogen ecosystem across production, distribution, and utilization

LOTTE Chemical is building a business foundation for future growth by securing **a leading position in the hydrogen market, which is essential for carbon reduction and green energy**. We are building a hydrogen value chain through hydrogen shipping centers utilizing by-product hydrogen and hydrogen fuel cell power generation. We plan to expand our business such as fuel supply for clean H2 power generation, power plant, fuel supply for decarbonized ship and transition to low-carbon fuels/feedstocks by **introducing clean H2 from overseas into Korea**.

01. PRODUCTION

Challenger

Execution-Driven Talent

Individuals who actively pursue new opportunities and take on challenges with passion and high energy

- Drives Execution
- Takes Initiative

Harmonizer

Collaborative & Inclusive Talent

Individuals who respect diverse perspectives and cultures and collaborate to achieve shared goals

- Collaborates
- Embraces Diversity

Expert

Strategic Talent with Business Insight

Individuals who anticipate future opportunities and develop strategies based on a deep understanding of the business and market

- Strategic Thinking
- Business Insight

Motivator

Responsible & Self-Driven Talent

Individuals who take ownership of their responsibilities and strive to achieve organizational goals

- Drives Engagement
- Ensures Accountability

LOTTE Chemical places greater emphasis on future potential than current achievements and seeks global talent with the passion and sense of responsibility to contribute to a more mature society through their growth.

MISSION
